

Regulation of traffic during the race

There are traffic restrictions associated with the race. We would like to inform you about the traffic restrictions so that you can prepare for possible complications and use alternative routes.

For all stages, all traffic is strictly restricted against the direction of the race, which is extended in specific cases to include complete closures at dangerous points and at points of repeated passage. Traffic is always interrupted with the passage of the introductory car and then resumed after the passage of the checkerboard car. The specifics for each stage are explained in the following paragraphs.

The first leg of the race will take place on Thursday, **May 25**. Therefore, **from 15:00 to 19:30**, the entire circuit will be closed along the main roads from Krásná Lípa towards Vápenka to Doubice, then to Kyjov and back to Krásná Lípa.

On Friday, **26 May**, there will be a traffic restriction when the peloton passes through the route of the second stage of the race **from 14:30 to 18:30**. During this stage there will be a complete closure of the Dlouhý Dole road (Kyjov – Vlčí Hora)

On Saturday, **27 May**, traffic will be restricted on the route of the traditional "Zeleňák" again **from 14:30 to 18:30**. At this time, two circuits will take place with start and finish in Rumburk.

On Sunday **28 May**, the last day of the race, you will encounter traffic restrictions **from 9:30 to 14:00**. There will be complete closures at four locations on this route for safety reasons. Specifically at the following locations: *Krásné Pole – Kytlice*, *Mlýny – Křížový Buk*, *Saula – Doubice*, *Doubice – Krásná Lípa*

Detailed information about the individual stages will be available from the organizers at specific race locations or electronically in the form of an itinerary and map, which can be found on the website www.tourdefeminin.com.
